KSME Annual Meeting 2026 International Session

November 11-14, 2026

ICC JEJU, Jeju, Korea + Online

Welcome Message

The Korean Society of Mechanical Engineers is holding the 'KSME Annual Meeting 2026' at ICC JEJU, Jeju, Korea from November 11 to 14, 2026. The KSME Annual Meeting is the largest academic event held by KSME where more than 1,400 lectures and papers are presented with 3,000 attendees every year. This year's meeting will establish its fourth International Session to expand and exchange discussions with overseas researchers. Korean/non-Korean researchers in overseas universities and institutions and those from domestic affiliations can participate in this hybrid (online and onsite) session. While onsite presentations are recommended, online presentations can also be made if affiliated with foreign organizations. Onsite presentations are mandatory for all domestic presenters. Through this session, we hope researchers in the field of mechanical engineering have the opportunity to share ideas and outcomes. We look forward to your ardent support and participation.

Yours sincerely,

Chair of International Session
Prof. Jung Kim
Korea Advanced Institute of Science and Technology

General Chairs of KSME Annual Meeting 2026
Prof. Dong Gyu Ahn
Chosun University
Dr. Kwangpil Chang
HD Korea Shipbuilding & Offshore Engineering

Session Topics

01. Engineering Materials and Technology
02. Solid Mechanics and Design
03. Dynamics, Vibration and Sounds
04. Robotics and Control
05. Production Engineering
06. Thermal and Power Engineering
07. Fluids Engineering
08. Bioengineering
09. Micro/Nano Engineering and Technology
10. Other Emerging Technologies in Mechanical Engineering

Submission Guideline

Authors are invited to submit a one-page abstract in English by September 2, 2026. The abstract should be submitted via the official online website (http://intl.ksme.or.kr). Registration is required before you submit an abstract. A participant can make one or two presentation(s); one registration can cover two presentations only.

Submission to JMST – Optional

If you are going to submit your paper to Journal of Mechanical Science and Technology (JMST, SCIE-indexed) to be considered for publication in a special section, a full paper prepared in the JMST template must be submitted by November 14, 2026. Guidelines in detail will be updated later on. (https://link.springer.com/journal/12206/collections)

Important Dates

• Abstract Submission Deadline	September 2, 2026
• Notification of Acceptance	September 22, 2026
• Revised Abstract Submission Deadline	September 30, 2026
• Registration Deadline for Presenters	September 2, 2026
• Registration Deadline for Participants	October 7, 2026
• Full Paper Submission Deadline (Optional)	November 14, 2026

Registration Fee

Category	Onsite		Online
Regular	Member	USD 200 KRW 265,000	USD 130
	Non-member	USD 250 KRW 325,000	
Student	Member	USD 140 KRW 170,000	USD 70
	Non-member	USD 160 KRW 195,000	

* Onsite registration fee includes lunches and a banquet.
* Presenters affiliated with a domestic organization are required to present onsite.
* 'Non-Member' participants will be granted a one-year KSME membership.

Venue
